

KRRISH JOSHI

B.Tech CSE | Software Developer | Cloud & Security Enthusiast

9306613887 • joshikrrish196@gmail.com • linkedin.com/in/KrrishJoshi • github.com/KrrishJoshi19 • krrishjoshi19-kappa.vercel.app

PROFESSIONAL SUMMARY

B.Tech Computer Science Engineering student specializing in Cloud Technology and Information Security, with hands-on experience in software development, web technologies, networking, and cloud computing. Passionate about building practical, user-focused applications and developing strong foundations in software engineering, cloud infrastructure, and cybersecurity.

EDUCATION

Maharishi Markandeshwar Deemed To Be University, Mullana

Bachelor of Technology — Computer Science & Engineering

Specialization: Cloud Technology & Information Security | Expected Graduation: 2028

TECHNICAL SKILLS

Programming	C++, Java, Python
Web Development	HTML, CSS, JavaScript, React.js, Vite
Database	SQL, MySQL
Cloud & Networking	Cloud Computing, VPN, NAT, Computer Networks
Tools	Git, GitHub, VS Code, Linux
Other	Data Structures & Algorithms, Problem Solving, Video Editing

PROJECTS

Personal Portfolio Website

React.js | Vite | JavaScript | CSS | Framer Motion

- Designed and developed a modern personal portfolio showcasing technical skills, projects, and professional profile.
- Implemented responsive layouts and interactive UI components with a premium visual design.
- Integrated modern frontend technologies and animations for an engaging user experience.
- Deployed the application using Vercel.

MediLab — Healthcare Web Application

JavaScript | HTML | CSS | Web Development

- Developed a healthcare-focused web application with a clean and accessible digital interface.
- Created responsive user interfaces with emphasis on usability and structured information presentation.
- Implemented interactive sections to improve the overall user experience.

Live: medilab-jw45.onrender.com

Network Security Using VPN & NAT

Computer Networks | Cisco Packet Tracer | VPN | NAT

- Designed and configured a network environment demonstrating VPN and Network Address Translation concepts.
- Implemented network communication and address translation to understand secure private-to-public connectivity.
- Used Cisco Packet Tracer to simulate and analyze the network configuration.

EXPERIENCE

Solitaire Infosys | Cloud Computing Intern

- Gained practical exposure to fundamental concepts of cloud computing and cloud technologies.
- Worked with concepts related to cloud infrastructure, deployment, and networking.
- Developed an understanding of real-world cloud environments and their applications.

CERTIFICATIONS

To be added

CORE STRENGTHS

Problem Solving • Continuous Learning • Software Development • Cloud & Networking Fundamentals • Team Collaboration • Creative Thinking
